

CHAPTER V

CLOSURE

A. Conclusions

After conducting the research on the ability of the eighth grade students at SMPN 23 Banjarmasin in school year 2015/2016 in reading short functional texts, the writer can conclude as follows.

1. The students ability in reading short functional texts at the eighth grade of SMPN 23 Banjarmasin is fair category with the mean score is 61.43.
2. The most difficult type of short functional texts for the eighth grade students' at SMPN 23 Banjarmasin with the highest wrong answer based on the test result is Notice. It is followed by Advertisement, Announcement, Letter, and Invitation .

B. Suggestions

Considering the result of this research, the writer has following suggestions:

1. For the eighth grade students' at SMPN 23 Banjarmasin, they are categorized fair in answering the questions, they should enstudy more and more again to improve their ability in English, especially in reading, because reading is very important, by reading we can increase our vocabulary. So, the students can practice reading everytime and everywhere, especially to remember about types of notice text.
2. For the English teacher at SMPN 23 Banjarmasin, they should give more reading practice to the students, so the students can increase their ability

in English. It will be better for the teacher to give more exercises in answering the questions about notice text from other sources of book. Keep on giving motivations to students to improve their ability in reading skill.
