

CHAPTER V

CLOSURE

This last chapter presents the important points from discussions in the research. Besides, it also suggest some recommendations for the readers and for English teacher at State Islamic Senior High School Barito Selatan.

A. Conclusions

In this stage explained about the conclusions about the result of the research.

1. The implementation of Directed Inquiry Activity technique there are some steps that teacher have past in teaching. Some steps that be characteristic in this technique is steps where the teacher gave some meaning of difficult vocabularies in the teaching process and asked students to answer some questions from the text at the time after discussion section. Sequence steps could make the teaching and learning process gave good effect for teacher and students.
2. The challenges that teacher faced in teaching with DIA technique was about managing time because the teacher should asked student to make discussion group and discuss about the text to answer question indeed. She need extra time for discussion and correction because after students answer all question the teacher and students will correcting the answer directly in the same time.

3. The advantages that teacher got in using directed inquiry activity it is help the teacher to easier in teaching exposition text because the teacher just also asked some question to them and then they find it. In first time before teacher continue the lesson in the class it is interesting to gave them some resume about what is analytical exposition that she did by explain analytical exposition by power point media and from brain stroming that she did to found the students opinion about definition of analytical exposition and about issue in public. And to students, the advantages that students got when the teacher used DIA technique in teaching were using the technique could have improve students' motivation and improve students' interest.

B. Suggestion

In this stage the researcher will give some suggestions for lecturer and readers.

1. It is good for teacher to used power point as a media to supported in explaining the material in the classroom. For teacher, it is better if she use variation media in teaching the material. Related about the challenge that teacher face in implement DIA in teaching reading analytical exposition text, the main challenge that teacher face is managing time. It is better if the teacher give the attention to students about time limit in discussing and answering question. And for students hopefully they can be focus in learning english and do not be

lazy to open dictionary when found unfamiliar word for them, and also students hopefully can be active in teaching and learning process in the classroom.

2. For the readers, hopefully this research can be good reference for next research and also this research can be helpful in improving reading skill.
