

CHAPTER V

CLOSURE

A. Conclusions

Based on the description that has been put forward in previous section, it can be concluded that English language teaching at SMA BanuaKal-Sel performed very excited. The use of content based instruction approach showed very excellent it seen from the good responses by the students and it can be seen on several indications as follows:

1. The use of content based instruction in biology teaching is very good because the teacher spoke English all the time. The teacher seemed to be very good in English and knowledgeable about biology subject because he has taught for thirteen years in biology.

2. Students responses in learning process of biology teaching is also very good it could be seen from the students' scores and they were active in learning process, they also answer the question by English.

From two information above shows that the teacher was success in using content based instruction.

B. Suggestion

As a follow up of the research result, the following suggestions from reseacher:

1. To the school, in order to not only some educators who has professionalism, and good integrity but all of educators must be, so that they can create the best quality of students and generation.
2. The school may apply Content best Instruction to allthe subject
3. To educators, should be create more method and games in learning process, so that the students more easy to remember the lesson and they can enjoy the lesson.
4. The educators should have good English to transfer their knowledge.
