1. When do you start using WhatsApp for outside teaching and learning?
  - It is has been a long times ago sience 2016.
2. Do you require all your students to join on whatsapp group and follow the activities?
  - I ask my students especially a chairman of the class to make a group WhatsApp , and i ask to invite me in that group.
3. What do you use of WhatsApp application for outside teaching and learning?
  - WhatsApp is very important media in teaching for students to get the learning materials such as a E-book, journal, power point, acticles, and

the information that related with our activities in the classroom, so i will share its for support my teaching in class and help me to improving my quality in teaching.

- I used whatsApp for discussion the materials on outside teaching when the students have some problems regarding the lesson they have in the classroom, so we have doing discussion in whatsApp group and the students are discuss everything there are relating with the lesson where is they not understand especially. For example, when i told about the Curriculum in material development, i ask my students to discuss about the definition of curriculum, syllabus, and lesson plan and also the function of its and the students should discuss on whatsApp group.
- Beside on share the materials and discussion, i also used this group of whatsApp to give an assignment andthan the students should submitt it on privacy message to the lecture. To collect the students assignment must send them by privacy message because students' fear they will copy their answer from their friends.
- The function of WhatsApp for outside the classroom is for connecting all of us between the teacher and the students to bain in one communication cycle wich is very good but in our campus did not provide the communication yet. So it a good facility from the application to teacher and students to be a unifay in one classroom for outside the class.

4. Why do you use Whatsapp as media for outside teaching and learning?

- Because i thing WhatsApp is the only one of application that can unify the teacher and the students to connect in one online application although this is a media social application but very usefull and i am expect this university will provide us with system like Canvas. For example, in E-learning with bain the students and the teachers one's learning system by using WhatsApp application.

5. Do you think using whatsapp is very helpful when teaching and learning process is going?

- I think so because the students will able to ask question regarding to the lesson with her teachers and their friends in group whatsApp class. If there is a students does not understand the material when her teachers explains they may ask in the whatsApp group and also the may use whatsApp to confirm the assignment for example, some students not understand about assignment given to them and they ask in whatsapp so i can explain again in whatsapp to them. So this app very halful for students especially in build the communication with her teacher.

6. Do you have any difficulties when using whatsapp for outside teaching and learning?

- Sometimes we lose the connection to provider example and i believe that also my students have some problem with me. When i want to share the materials and i have a poor connection i can do that automaticly the materials is delay to be send. Beside that WhatsApp need a good

connection, so when we will access this app we need the quota and not every student has phone quota.

7. According to you, what are the advantages of using WhatsApp for outside teaching and learning English?

- WhatsApp application is very easy to use and everyone especially teachers and students have this application because it helps students to communicate with others especially to communicate with their teacher and it makes it easy for students to ask questions when they don't understand about something regarding the lesson.
- I have the communication cycle with my students for outside the class.
- WhatsApp helps me to improve my quality in teaching.

8. According to you, what are the disadvantages of using WhatsApp for outside teaching and learning English?

- Sharing materials, tasks, information, related materials or documents, and everything. It is a little bit hard because I have five classes for this semester and I am teaching the English course of TEFL 1 and automatically I have five groups so I have to run from one group to another group to post the materials and also give them the instruction.
- Some students do not really pay attention to this group when discussion times, some students only read this group when the discussion is going.

1. When do you start using WhatsApp for outside teaching and learning?
  - I think it is been like a 2016.
2. Do you require all your students to join on whatsapp group and follow the activities?
  - Ya, in the begining of the class, i ask my students to make a WhatsApp group for their class and ask every body to join in that group. So that, i can share any information releted to the class and with that we can save the times in classroom, sometimes i ma forgot to tell some information in the class but i can do it on outside the class.
3. What do you use of WhatsApp for outside teaching and learning?
  - In the classroom it is happen in Morpho syntax class. In that time when the projector is not working and we are ready have to show the power

point to the play but there is not media to displayed so i just ask the presenters to share it on WhatsApp. So that, every students can access it, well the are listening the presenters. Sometimes i am also do that when i see this app working for myself and i am explaining something in there because i think it is more efective than writing in whitebord because we write faster on kybord than whitebord right?

- For outside the class i use this application to publish some material on WhatsApp group such as share some journal, E-book and etc when i forgot to tell my students some information in theclassroom.

4. Why do you use Whatsapp as media for outside teaching and learning?

- Well, because every students has it. We can use the other media in teaching but the other application has some technical problems usually like students not have enough kuota to install that application and some of them did not enough cafacity on their phone.
- Easy to used and this application can save the times in teaching process is going when te projector is not working in the classroom.

5. Do you think using whatsapp is very helpful when teaching and learning process is going?

- I think it is yes, only if the students are able to copyright. I think we need to understand the students first if they are able to be ask to use the media or not. This app can use in teaching process is going but you can not do that in the classroom in which the students do not really pay intention.

6. Do you have any difficulties when using whatsapp for outside teaching and learning?
- Not really, because this app very helpfull teacher and her students in teaching activities in and out the classroom.

1. When do you start using WhatsApp for outside teaching and learning?
  - I started using whatsapp is last semeseter for my students in the third semester for my writing class and we still continue that group because i am still teach them on four semester in Essay writing class.
2. Do you require all your students to join on whatsapp group and follow the activities?

- Yes. For first i ask the chairman of the class actually to created the group andthen all of his friends join to that group because they need some information,etc.
3. What do you use of WhatsApp for outside teaching and learning?
- Usually before come to the class i give my students the materials such as E-book, Pdf, and etc and sometimes after i had the class, my students ask my to send the power point on our group. Beside on share the materials of teaching i also give them an announcement for doing homework .
  - Sometimes doing discussion when i am going to jakarta because i can not to attend to the class and meet to tech them. So we had discuss some point that the students not understand and i ask my students to post some question releted the lesson which one their not understand.
4. Why do you use Whatsapp as media for outside teaching and learning?
- I thing this app very populer in the society especially all of my students has it to communication with other.
  - Easy to used. For previously on your class i used the other media like schoology but some difficulties like can not accses and login for some students. So many students can post the assignment in that app.
5. Do you think using whatsapp is very helpful when teaching and learning process is going?
- Yes, very helpful especially for me because i can coomunicate with my student in outside the class.
  - I can help my students if they have problems with they study.

- I can share the materials related to the study in a WhatsApp group and
  - Submit the project or homework must be shared on a WhatsApp group not in a private message because I hope the students can learn from their friend's work because they can read that as an example of the writing.
6. Do you have any difficulties when using WhatsApp for outside teaching and learning?
- Not really, just sometimes we lose the connection so for sharing the materials is delayed but this application is very useful in teaching especially for outside the classroom.
7. According to you, what are the advantages of using WhatsApp for outside teaching and learning?
- I have mentioned previously, the students can share their problem and ask their friend in a WhatsApp group related to the lesson. So not only me to respond to it but the other friend can also respond.
  - In my group actually we used the English language, when I post something and ask a question I used English and my students must respond to it with English language too.
8. According to you, what are the disadvantages of using WhatsApp for outside teaching and learning?
- Some students are not active and only check the group very often.
  - Sometimes lose connection when we left Banjarmasin, so I cannot share the materials. If I can do that it is very slow to be sent.

- Not all of my students have response, the response only some students, may be active but keep silents because not relly confidents with their writing.
- Changes the number because lost their phone especially for their chairman and he can join to that group again because the chairman is the only one admin in that group. So the chairman must privasy massage with the lecture.

### **Interview Guideline (Teacher D)**

The name of the University : Antasari State Islamic University Banjarmasin.

Banjarmasin.

1. When do you start using WhatsApp for outside teaching and learning?

- First times i use WhatsApp application as media in teaching on 2016.

2. Do you require all your students to join on whatsapp group and follow the activities?
  - Yes, all of the students have to join in the group class of whatsapp and do all activities in there and if one of the students not follow the activities i will give warning first and then give a punishment for her/him .
3. What do you use of WhatsApp application for outside teaching and learning?
  - I use WhatsApp because i want to try this application whether it is effective or not as media in teaching for outside the classroom.
  - I use it for all of the activities after have meeting for facilities to reflection plus discussion. Reflection it is mean the activities that all of students are obliged to gather writing on their understanding of past lesson of the introduction linguistic and it is do for weekly activities after have meeting in the classroom.
  - For discussion times, all of the students can ask with other on group whatsapp related the lesson and all of students can answer the question from their friends, after that the lecture give that conclusion about that question.
  - For share the materials i am not do that when i am teaching because every students have the books of linguistic. So we are going to learning, submit reflection, and discussion by used that books.

4. Why do you use Whatsapp as media for outside teaching and learning?
  - As i told you before, first i use whatApp because want to try that application wether it is efective or not as media for outside teaching and learning process.
  - Second, this application is very easy to use for someone how have this application and i know that all of my students has it, i think it is a achieve rather than using other application.
5. Do you think using whatsapp is very helpful when teaching and learning process is going?
  - For teaching times in the classroom it is not relly helpfull when all of the media such like a projector, whiteboard and etc still can play. If not we can use that application in teaching. WhatsApp is very helpfull but just to be a supplement as media for outside teaching and learning process.
  - For result of descussion or reflection on outside the class it is very helpfull my students when learning process is going in the classroom because with it my students could remember the past lesson and be ready to learn the next materials.
6. Do you have any difficulties when using whatsapp for outside teaching and learning?
  - I did not have difficulties during use that application as media in teaching because that app very easy to use and very simple i think.
7. According to you, what are the advantages of using whatsapp for outside teaching and learning?

- As a teacher this app greatly help me in reach and control my students. I can build the communiucation cyrcle with them on outside the classroom.
  - The materials is more quecly distributed to all students who use this application to share the materials.
  - I think to disseminate more quieckly through whatsApp application.
  - All of the students are more diligent in submitt his/her reflection. It is easier to control students who have not send the reflection and who has sent it. Reflection is a student's obligation at the end of the class meeting because of keeping track with the daily value.
8. According to you, what are the disadvantages of using whatsapp for outside teaching and learning?
- The students have copy paste the answers from their friends when the reflection and discussion is going on whatsApp group and with that condition it is make the students is not independent for him/herself.
