

CHAPTER V

CLOSURE

A. Conclusion

English Education Department at Tarbiyah and Teacher Training Faculty in Antasari State Islamic University Banjarmasin is one of the departments where the English teachers use WhatsApp application for teaching and learning English.

1. Based on the results of the interview directly, English Teachers at English Education Department used WhatsApp application as a tool for communication circle between students and teacher for outside the classroom and English Teachers at used WhatsApp application for outside teaching and learning activities included: uploading the materials, group discussion, assignment, online learning and WhatsApp application also providing students to improve their skill include Speaking, Wraiting, and Reading.
2. As for the implementation of the above activities, there are several advantages felt by teachers and some students such as WhatsApp application as a tool for communication between students and teacher. It is help the teachers to improve those qualities in teaching activities because the teachers have a communication circle with her/his students for outside the classroom.

3. The disadvantages of using WhatsApp application for outside teaching and learning such as some students not really pay attention the group when discussion times, some students only read that group when the discussion is going, the students have copy paste the answers from their friends when the discussion is going. So, with that condition it is make the students is not independent for him/herself.

B. Suggestions

Based on the finding of the research, the researcher would like to purpose the following suggestion:

1. English teacher in Antasari State Islamic University Banjarmasin who uses the WhatsApp application will better in using the WhatsApp application in the various features available in this application. This application would as a tool for communication between students and teacher for outside the classroom and as a media for outside teaching and learning English and it would be better if the teacher could use this application to teach various skills in English.
2. This university will be better if can support all of the teacher at this University to be able to use the WhatsApp application as media for teaching and learning activities. So that teaching and learning activities are more varied, interesting and easier for teachers and students.

3. The next researchers will be better if they can examine the other application especially the learning applications. Because with research on the learning application, we can find out how the application can be used for teaching and learning activities, we can know the advantages and disadvantages of the application and also we can find out how the various parties perceive the use of applications in teaching and learning.
