

## **CHAPTER V**

### **CLOSURE**

#### **A. Conclusion**

Based on the research result, the researcher can conclude the points as follow:

1. The results obtained from observational studies conducted on students studying in the UPB class both from group one and group two, from both groups can be obtained that their enthusiasm in learning English in the UPB class is very good in average numbers. Judging from the enthusiasm of observations These students both in the speaking achievement test and direct observation in the research class can conclude that their enthusiasm in learning English is indeed very large, especially for students who are majoring in English Tarbiyah they are very enthusiastic even though the UPB class is very early, students think that this lesson is important for them to support the ability of the majors they take and choose, but there are some from other faculties who also have high enthusiasm in learning English.

#### **B. Suggestion**

Based on the findings of the research, the researcher would like to propose the following suggestion:

1. The researcher realizes that the study, however, has not been satisfactory yet. the researcher hopes that other researchers would

continue this study to find other aspects of students' enthusiasm in learning English.

2. For students who are studying in any department, especially to students studying in the English department, the students must be enthusiasm in learning while you are young, do not give up and be thankful for what us get even though it is not our desire completely and believe all of it surely in the goodness of Allah, arouse enthusiasm for learning and arouse our enthusiasm.
