

## CHAPTER V

### CLOSURE

In this last chapter the researcher presents the conclusion based on the analysis done in the previous chapter. It compasses the main points of the study and the researcher also provides some suggestions for the readers who want to conduct a research on the similar subject. It has correlated with the title “The Analysis of Teachers’ Preparation In Using English Textbooks”

#### A. Conclusion

Based on the research result, the researcher concluded that the teacher at the MTsN 3 Kota Banjarmasin prepared material in using English textbooks well. They *adding content, adapting textboo, addressing omission, use allmaterial from textbook*, they also *adapting the tasks material*, namely authentic or commercial materials. Teachers added and chose the material in preparation stage and matched the materials with goals in the syllabus or lesson plan.

The result of the study indicates that preparation in using English textbook is important for the teachers in order to be creative in preparing the materials, teacher are able to combine several books to get material that suits students' needs, teachers are able to use authentic and commercial materials beside textbook, and give many benefits both for the students and the teachers. Through several instruments, teachers can bring the reality to the students in the classroom.

#### B. Suggestion

1. For English teachers should learn more about how to design learning and material resources in the lesson plan, based on the syllabus and students’ characteristic and need.
2. For English teachers should prepare theirmaterial well so the learning can be conveyed well to students.
