

CHAPTER V

CLOSURE

This chapter presents the summary of this research, the conclusion of overall view of what has been discussed in the previous chapters, and some suggestions that hopefully be useful and give additional input in the teaching and learning English.

A. CONCLUSION

The research conclusion presented according with the data, which have been analyzed in the previous chapter. Investigation and discussion of the result of the research aims to answer problems and results from a research which has been conducted, then interpret the finding in the research to be knowledge. From all the data analysis about the ability of foreign students at Antasari state Islamic University Banjarmasin in learning English, it can be concluded that, the ability of English students from Malaysia is very good. And the ability of English students from Thailand is very less.

Mainwhile, the problems faced by foreign students when learning English at UIN Antasari Banjarmasin are mastery of language skills, language fluency and learning communication.

B. SUGGESTION

From the research conducted, the authors have several suggestions that if they can improve learning and have a positive impact, such as:

1. For Students

The result of the study indicates that the ability of foreign students in learning English is in enough and less category. It is proven by finding the difficulties in test. It is hoped that the students increase their ability. The students need to enrich their experiences in learning English. They also need to increase their motivation and interest to learn English well. In so doing, the students will good in English and they will not find difficulties in learning English.

2. For other researcher

There are still many aspects which can be analyzed about English. Finally, other researchers can analyze other aspects in learning English and the result of this study may be used as early information to conduct further researches.
