

## **BAB V**

### **CLOSURE**

#### **A. Conclusion**

Based on the findings and discussion of this research, there are two important points that should be emphasized by the researcher as the conclusion. First, based on the research discussion, it can be concluded that the teacher have been implementing teams games tournament well. This statement supported by the fact that the teacher used the technique in the right order from beginning until the end. The preparation was good, the class environment was not boring, and could involve the students to the lesson as well.

Other important point to be emphasized is the problem of using Teams Games Tournament. The teacher stated the problems as follows: 1) The preparation should be prepared well in order to achieve teaching and learning goals, 2) Teams Games Tournament takes a lot of time, 3) The placement of the students need to be consideration.

#### **B. Suggestions**

##### 1. For English teacher

It would be better if the teacher could use Teams Games Tournament as a variation in teaching English, because this technique is not suitable for all English skill.

##### 2. For the school

It would be better if the school especially for SMPN 4 Tanjung could support all the teachers to use Teams Games Tournament or another technique. So the

learning process more varied, interesting, and easier for the teachers and students in the school.

3. For further research

It would be better if another researcher can examine various learning technique especially cooperative learning such as STAD, TAI, and etc. b conducting a research on the learning technique, we can find out how the used and how various the response towards the use of the technique in the learning process.
