

CHAPTER V

CONCLUSION AND SUGGESTION

Based on the finding and discussion, this chapter presents the conclusion of the research and suggestion for the future research related with this topic. The result of the finding and discussion can be concluded and as the following representation.

A. Conclusion

In organization to answer the research question, the researcher did the interview with five English teachers who teach in Junior High Schools.

The finding as follows:

1. The teachers develop teaching materials by collecting references and making relevant concepts by creating new ideas, by one collect the reference from internet or from some books, and teachers develop teaching materials using unique media.
2. All of the teachers are ready in developing their teaching materials.

B. Suggestion

The researcher proposes some suggestions to English teacher's readiness in developing teaching materials of junior high schools in Banjarmasin and the next researchers. The suggestions are as follow:

1. For the Teacher

The teacher is the one of important component in education, especially

in the teaching and learning process, as well as the main role that must understand the various characteristics of students and the teacher can provide several benefits during the learning process of English. Therefore my suggestion for the future, teachers' who are the readiness to develop teaching materials. Must have a better program design in the future and further increase the use of media, especially collecting references from various books or the internet. So that, over time it can help students, so they don't feel bored in the learning process in class and learning can be conveyed well.

2. For the next researchers

For the next researchers who will take the same theme, this thesis the researcher has a perception that the design of study was imperfect. Therefore, the researcher wishes that other researcher could conduct this research in wider area and that other researches can improve this study with the better design about the English teachers' readiness in developing teaching materials.
