

CHAPTER V

CLOSURE

A. Conclusion

Based on anlysis of the data it could be conclude that :

The teacher implemented ongoing assessment of young learner at fifth grade of MI Muhammadiyah Rantau used 4 different activites that can be used in ongoing assessment.

Those activities are Interview, diary activity, peer assessment and feedback.

B. Suggestion

Based on the findings, it is necessary to give some suggestion for English teacher and next researchers.

1. Suggestion for the teacher

Researcher suggest to the teacher to less checking students understanding.

Teacher could still check students understanding before post activity which she still could do it before she ended the class. IT might be good for the students who like it, but for the students who did not, it might make them feel feel a little under pressure.

2. Suggestion for the next researcher

For the next researcher, the researcher suggest to conduct the observation and the study not just in one class, but more than that. Thus, it can help the researcher to gather more, and deeper data in teacher's on-going-assessment of young learners.
