

## **CHAPTER V**

### **CLOSURE**

#### **A. Conclusion**

Based on the result of international nursing students' problems in writing English scientific paper is above. It can be concluded that there are problems that students have in making scientific paper; English nursing documentation. Those problems are the difficulty in grammar, lack of vocabulary and medical language, spelling, and punctuation. International nursing students solve the problems or difficulties by doing consultation, writing daily activities and story, joining some competitions related to English scientific paper or essay, using some media such as Google translate and Bing translator, and reading a lot of English novel and science books.

#### **B. Suggestion**

Based on the result of the research, analyzed, discussion, and conclusion at international nursing students' problems in writing scientific paper, the researcher wants to give suggestion. These are suggestion that researcher makes as follows:

1. The students should study more to decrease the lack of knowledge and understanding of grammatical rules.
2. Students should practice this skill started from simplest one to complex writing such as joining English writing competition, writing daily activity, blog, etc.
3. The lecturer could make this research as references for giving suggestions to the students.
4. The further researcher could make this research as references for future research.
