Keyword: *Tashhîh*, Yasin Surah, *Waqf* sign, Risalah Amaliyah, Indonesian Standard Mushaf (MSI), LPMQ.

Risalah Amaliyah is a book that contains a collection of selected chapters with various kinds of *dhikr* and daily practice. This book is a book that is widely used by the Banjar community and several Islamic boarding schools as a guide for various daily activities and certain warnings. The chosen surah in the Risalah Amaliyah are Yasin, Waqi'ah, al-Mulk, and other short surah. The writing of Surah Yasin in the Risalah Amaliyah is different from Surah Yasin in the Indonesian Standard Mushaf. Indonesian Standard Mushaf (MSI) is a Mushaf that has been inaugurated by LPMQ as a reference *mushaf* in the *Pentashhîhan* several Mushaf in Indonesia. The *waqf* sign used by MSI and has been inaugurated consists of twelve *waqf* signs following the history of *Khalaf al-Husaini*. The placement of *waqf* signs on MSI follows the history of *al-Sajāwandi*. The writing of punctuation and *waqf* marks and the place of *waqf* in Surah Yasin in the Risalah Amaliyah is different from that of the Yasin in the Indonesian Standard Mushaf (MSI). It is feared that the difference in the writing of the sign and the place of the *waqf* in the Risalah Amaliyah is feared to be a problem in the community. This research uses qualitative research methods and library research. The data collected is obtained from interviews, observation, and documentation. Besides, data is also obtained from books and reports on the results of previous studies related to this research. The data that has been obtained is then analyzed into words in the form of tables. Data processing is data codification, data presentation, and conclusion drawing. This research resulted in the finding that books such as Risalah Amaliyah also need to be adhered to and to check the writing of the al-Qur`an chapters. The suitability of punctuation marks such as *waqf* is very important for books like Risalah Amaliyah.
