

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Strategic competence used by English teachers had been conducted by the researcher, therefore it could be concluded that:

1. Literal Translation (LT) , Mime (M), Language Switch (LS) and Appeal for Assistance (AA)
2. The dominant strategies used by English teachers are Literal translation (LT), Mime (M) and Language Switch (LS).

B. Suggestion

The researcher had analyzed the strategic competence of English teachers at SMK Bina Banua Banjarmasin in class X Akt 1 and X Tkj 1, and there were some suggestion which could be useful for:

1. The Reader

The use of strategic competencies not only contributes to communication in the teaching and learning process, but is also very useful in general communication. For those who have English as a foreign language, it is best to read this final project and practice their speaking skills through the use of strategies in real life communication.

2. The English Teacher

Before teachers learn more about how to optimize speaking performance in the classroom through the strategic competencies used, teachers must first know the characteristics of students. It is to assist teachers in deciding the best strategy to use for their students.
