

CHAPTER V

CLOSURE

A. Conclusion

After finish all of steps of this study, the researcher concluded that using motion pictures in the classroom can implement by the teacher with adding the explanation, there are three stages which are passed by the teacher, the first is pre-activities, in this stage the teacher opened the lesson, prepared the student to get the lesson, and prepared the tools to implement the motion picture. The second is while-activities, in this stage the teacher explained the material before play the motion picture then showed the motion picture. The last stage is post-activities, in this stage the teacher invited the students to follow the quiz, the teacher played the quiz by using motion picture, the teacher ensured students understanding and concluded the lesson.

While the teacher use the motion picture the teacher will front with the challenge of using motion picture such like time management, classroom management, and equipment trouble. The motion picture cannot use without complete equipment such like computer, audio speaker and LCD Projector, the teacher will get the challenge when the teacher use motion picture.

The students will be easy to understand the motion picture because almost motion picture has familiar characters, the students score will be good when the teacher use motion picture as English teaching media correctly, there is positive difference that the student felt when the teacher use the motion picture as English teaching media, The students give positive response for learning English by using motion picture and they want to learn English by using this media.

B. Suggstion

Base on the finding and the discussion, the researcher has suggestion for the teacher, the students, and other researcher, the suggestion like mentioned below:

1. The teacher

The teacher has to prepare lesson plan correctly to manage the time, the teacher has to pay attention the students who not understand the lesson, the teacher has to check and prepare the equipment before the teacher implements the motion picture, and the last the teacher have to share the motion picture file to the students because it will make students can watch it at home.

2. The students

The students have to ask the teacher if the students do not understand the material, the students have not to consider the motion picture as only the entertainment, the students have to consider the motion picture as English teaching media, and the last the students have to watch the motion picture to repeat the material at home if the teacher has shared the motion picture file.

3. Other researcher

This study can use as example to finish researcher in the future and other researcher may correct this study if there is error in this study but other researcher have to include the name of author of this study.
