

CHAPTER V

CLOSURE

A. Conclusion

Based on the research result about students' strategies in learning English at Kesetaraan Paket C PKBM Bina Insani Banjarmasin, there are some necessary conclusions to make as follow:

1. The students use six strategies to learn English. Those strategies are: memory strategy, metacognitive strategy, cognitive strategy, compensation strategy, social strategy and affective strategy
2. The common metacognitive strategy used by the students to learn English in Kesetaraan Paket C PKBM Bina Insani

B. Suggestion

The fact that the students study for about 3 hours a day, make the researcher want to give some suggestion to the teacher. The suggestions are:

1. The teacher should notice about the students' strategies to learn English, because if the teacher knows strategies of the students in learning process, the teacher will be easy to teach them and make learning process more relax.
2. The students know about the strategies can be used to learn English in Kesetaraan Paket C.
3. The students could use the strategy that they like and appropriate with their habit to learn English so that they can be easy to learn English and it can make them more enjoy in learning process.
