

CHAPTER V

CLOSURE

This chapter presents the conclusion and suggestion about the result of the study. The conclusion answer the research question of this study and the suggestion are provide to expect better improvement for better online classes activity and future research related to this topics.

A. Conclusion.

Based on the result of this research about parents' perception to online classes during pandemic. It can be conculde that:

1. Parents' perception through online classes are: teacher gives material and quizzes but not with much explanation, the teacher can not handle the online learning, the teacher can not control the online class, akmost all students have their own phone to study, students were not enthusias in online learning, the internet acces always stable except when power failure, parents can control students learning but need students' older sister or brother to helps students learn, online learning add parents' expenses.
2. The most challenges in online learning based on parents thought are teacher has lack ability in handle online learning, teacher can not control the students during online learning, and students did not have enthusiastic to participate in online learning.

B. Suggestion

Based on the discussion and conclusion, the researcher gives some suggestions for teacher, students, parents and also future research as below:

1. Teacher.

The researcher hopes teacher can pay attention more to online learning, teacher can design an interesting learning to gain students' enthusiasm in online learning, teacher also can learn so many application that can help teacher to make an interesting classes even it held online.

2. Students

The researcher hopes students after read this research, they motivate to at least to understand the material, however the way. If the teacher explanation make them not understand, they can ask their siblings. I hope they realize that their parents happy seeing them study even add parents' expenses.

3. Parents

The researcher hopes parents can anticipate the cost problem. Because they need more cost to buy internet quota for online learning. Researcher also hope the parents can control and support student during online learning because students' focus in online learning easily lost.

4. Future research

The researcher suggest to future research to conduct another research that can explore more related to this topics, for example conducted a reasearch about how teacher gaining students motivation in online learning, etc.
