

CHAPTER V

CLOSURE

A. Conclusion

Based on the results of the above research on the effectiveness of using the Quizizz application as a learning medium in English lessons at Ukhuwah Islamic Senior High School Banjarmasin, the following conclusions can be drawn:

1. In the process of application, from the results of the research above, the effectiveness of the use of the Quizizz application in English subjects at Ukhuwah Islamic Senior High School Banjarmasin in terms of student responses and student achievements has been running effectively, this is indicated by the results obtained through questionnaires and interviews which show positive results from various parties, both from the teacher and students, this Quizizz learning media has been implemented in Ukhuwah, and has a great effect on students, but this media is not always used continuously by teachers, this is seen from the results of interviews with students and teachers, when viewed from the results of positive responses from the questionnaires that have been given to students, the percentage of student satisfaction in the use of this learning media is 85%, besides that, the results of student achievement also increase.
2. The problems of teacher to implement *Quizizz* application in teaching reading virtual, that when learning is known the teacher is less able to know the true

potential of students if the questions use the form of multiple choice quizzes. The teacher also does not know the students' abilities directly in learning so that the teacher must be more careful in teaching reading by using the Quizizz application, at this time the teacher is not able to know the students' abilities directly and there are problems with the character of students in learning.

B. Suggestion

According of the conclusions, it can be suggested as input to the community of Ukhuwah Islmic Senior High School Banjarmasin, to be used as a reference and consideration in the development of teaching Islamic religious education, with no intention of patronizing and reducing the author's respect, it is recommended, among others:

1. For Ukhuwah Islamic Senior High School Banjarmasin, they should continue to pay attention to learning using Quizizz media. Because the use of Quizizz media is very impactful for students in improving student learning. The results of this study can be used as a basis for improving the way of teaching reading through online media. Therefore, schools can provide media that can foster students' ability to learn reading.
2. For students, it is hoped that they will continue to be enthusiastic about learning and continue to increase their interest in learning in order to support good achievements for the future. As information material for students in learning to read using online media, especially in learning Quizizz, especially to improve their understanding in learning to read well.
