

## **CHAPTER V**

### **CLOSURE**

The use of Google Classroom during the pandemic is an alternative that can be used. In the current era of technological advances, they can learn from home. It has been proven that during the pandemic, teacher and students can still interact via Google Classroom. Google Classroom has not only advantages but also disadvantages.

#### **A. Conclusion**

Based on the discussion of the findings, the conclusions as follows:

1. There are 3 of 8 teaching skills that can be applied, explaining skill, opening and closing skill and classroom management skill.
2. The use of Google Classroom does not have satisfied effect on learning, such as teacher has difficulty controlling them, passive classes, many assignment is not done by student on time.
3. The teacher doesn't explain in English orally, it is difficult to develop student's English skills communicatively.

#### **B. Suggestion**

1. For school

In the future with advances in technology like now. Suggested school is more familiar with other online learning media besides Google Classroom.

2. For teacher

The writer suggested more familiar with online learning media. There are two books that the writer recommends such as *Strategi Pembelajaran Online Yang Inspiratif* by Dr. Lidia Susanti, S.P., M.P, *Online Teaching of English as a Foreign Language in Indonesia* by Didi Suherdi

3. For Education Office

The writer suggested introducing and teaching online learning media, so that if there is a pandemic or disaster such as floods, fires can learn from home with more fun online learning media.

4. For other researcher

The writer suggested can improve this research and can add to the experience of students using Google Classroom.
