

CHAPTER V

CLOSURE

A. Conclusion

In this research, Webtoon used in the process of learning and teaching reading comprehension. In order to use Webtoon for learning, the teacher used PQRST method as the technique of learning. This research used descriptive qualitative as the research design. From the discussion explained in the previous chapter, the researcher draws some conclusions of this research.

1. The steps of using PQRST method did by the teacher are:

a. Preview

The students stimulate their previous knowledge with reading the title, sub-titles, headlines, summaries, and pictures of the text.

b. Question

The students created some questions based on the preview they did before.

c. Read

The students read the text carefully to understand and find the answer of the question.

d. Summary

Students make their own conclusion by noting the main points of the story they get from understanding the text.

e. Test

In the last step, the students answer the questions they created

before in order to test their understanding and memories about the story given the teacher.

2. The advantages of using Webtoon that implement with PQRST method are, a) increase students interest to learn, b) develop students' independent learning, c) brings more fun in learning, d) get students more motivated, e) easy to understand the text given, f) helpful in remembering the events in the text.

B. Suggestion

The following suggestion are presented for those who are willing to contribute to the present research about Webtoon application and PQRST method.

1. For the teacher, make learning more creative and fun, the teacher can use Webtoon and PQRST method as the strategy. Then, the research suggested that the teacher should introduce the application and the method first to the students.
2. For the students, Webtoon and PQRST method can use to improve their skill in reading comprehension. They can use pictures in Webtoon and technique in PQRST method to understand more about the reading material.
3. For the next researchers, suggested to investigate more deeply about the use of Webtoon and PQRST method. The next researcher can investigate about the effect of Webtoon and PQRST method or the use of them at the other skills such as writing, listening, speaking, grammar, or vocabulary.
