22	Laughed Nervously	I <u>laughed nervously.</u> "A what?"	9	140
23	Gulped Down	I looked at Grover, who <u>gulped down</u> the ace of hearts.	9	151
24	Faded Away	They <u>faded away.</u>	11	182
25	Really Think	I mean, you <u>really think</u> you'll be the one to find Pan?"	12	197
26	Run Away	The poodle had <u>run away</u> from a rich local family	12	203
27	Decreased Drastically	... some guy arguing with each other, then the music's volume <u>decreased drastically.</u>	15	229

Table 3.7 above shows the list of the types of English collocation that have been found in this novel part type “verb + adverb” there are 27 word collocations found in chapter 1-6, 8-9, 11-12 and 15.

This table of collocation, the writer makes some functions in collocation, such as: page

**2. The Most frequent types of English collocation found in the novel
“Percy Jackson & the Olympians: The Lightning Thief.”**

After the made list of all English collocations in the novel, the writer also made the list of most frequent types of English collocation from those lists. The writer, in this case, classified all the collocations above into 7 types like: adjective + noun, adverb + adjective, noun + noun, noun + verb, verb + noun, verb + expression with preposition and verb + adverb. This is being done in order to find out what is the most frequent types of collocation appeared in the novel.

The types of English collocation which most frequently found in the novel as follows:

No	Most frequent types of English collocation	Result
1	Adjective + noun	280
2	Noun + noun	107
3	Adverb + adjective	60
4	Verb+ noun	56
5	Verb + adverb	27
6	Noun + verb	21
7	Verb + expression preposition	8

The result all about analyze the data found in the most frequent types of English collocation in this the novel, there are 559 collocations. Therefore, the result most frequent types of English collocation more used in the novel is adjective + noun = 280 collocations.

B. Discussion

1. The types of English collocation in the novel *Percy Jackson & the Olympians: The Lightning Thief*

The data analysis consists the types of English collocation. All the data and the analysis can be seen in the findings. To analyze the data in the novel can use some types of collocation. From the analysis that has been done 7 types of collocations are found, which have existed in the theory.

The writer classified the most common patterns in three explanations about the theory by several experts. The first, according to Lewis, M (2000, p.133), divided into 7 type collocations as follows: *adjective + noun, verb + noun, noun + noun, verb + adverb, adverb + adjective, verb + adjective + noun, and noun and noun*. The second, according to Michael McCarty and Felicity O'Dell (2005, p.12), in their book, *English Collocation in use*, divided into 6 type collocations as follows: *adjective + noun, noun + verb or verb + noun, noun + noun, verb + expression with preposition, verb + adverb, and adverb + adjective*. The third, according to Prof. Dr. Prudent Injeeli (2013), divided seven types of collocations as follows: *Adjectives + Nouns, Nouns + Verbs, Verbs + Nouns, Noun + Noun, Verbs + Expression with Preposition, Verbs + Adverbs, Adverbs + Adjectives*.

The writer used pattern according to Prof. Dr. Prudent Injeeli (2013), in books', *Mind Your Words, Master the Art of Learning and Teaching Vocabulary*. The writer observed that the theory Lewis, M (2000, p.133) pattern are nearly similar to Michael McCarty and Felicity O'Dell (2005, p.12). While Michael McCarty and Felicity O'Dell (2005, p.12) are similar to Prof. Dr. Prudent Injeeli (2013).

From the explanation above, the writer notice that in both classifications there were following types: **adjective + noun, adverb + adjective, noun + noun, noun + verb, verb + noun, and verb + adverb**. However, in the first classification, there was the type **verb + adjective + noun**. While the second and the third classification, there was the type **verb + expression with preposition**. In the second and the third explanation that type verb + adjective + noun was not found in the type.

Thus, based on the theory from several experts about the types of collocations and finding the result in the data above. According to Michael McCarty and Felicity O'Dell (2005, p.12), they are divided six types of collocations like: *Adjectives + Nouns, Nouns + Verbs or Verbs + Nouns, Noun + Noun* (there are a lot of collocations with the pattern *a... of...*), *Verbs + Expression with Preposition, Verbs + Adverbs, Adverbs + Adjectives*.

According to Prof. Dr. Prudent Injeeli (2013), divided seven types of collocations like: *Adjectives + Nouns, Nouns + Verbs, Verbs + Nouns,*

Noun + Noun, Verbs + Expression with Preposition, Verbs + Adverbs, Adverbs + Adjectives. While According to Benson and Ilson (1997, p.xx), divided into seven types of collocations like: *verb (creation/activation + verb (eradication/nullification) + noun, adjective + noun/noun + noun, noun + verb (action), Noun (unit) + of + noun, Adverb + adjective, Verb + adverb.*

Then, in the classification, the writer observed that not found one of the types of collocation. It was “**verb + expression with preposition**” by Benson & Ilson of the theory of a combination between lexical and grammatical collocation.

From the theory above, the writer took the types into seven types as *an adjective + noun, noun + verb, verb + noun, noun + noun, verbs + expression with preposition, verbs + adverb, and adverbs + adjectives* in the novel. From 7 type of collocation, it can facilitate our understanding of collocation that was in the novel. It can also to find out what kind of shape that collocation. Therefore, they don't feel difficulty how to locate or determine the collocation of the novel.

2. The most frequent types of English collocation found in the novel *Percy Jackson & the Olympians: The Lightning Thief.*

From analyzed the data to know that the result of all the data included in the types of collocations as much as 559 collocations found from 22 chapters in the novel with a variety of conversations and

expression. The most frequently used the novel the type of English collocation was adjectives + nouns with the result were 280 collocations. While the types of nouns + noun (107 collocations), verb + noun (56 collocations), adverb + adjective (60 collocations), verb + adverb (27 collocations), noun + verb (21 collocations) and a verb + expression with preposition (8 collocations).
