A. Conclusion

Based on the research result the writer can take the points as follows.

1. The degree of students' achievement in vocabulary in experiment class at the eleventh grade of MA Irtiqaiyah Banjarmasin is 74.19, it can be concluded in good category.
2. The degree of students' achievement in vocabulary in control class at the eleventh grade of MA Irtiqaiyah Banjarmasin is 59.73, it can be classified in average category.
3. The result of the calculation using t_{test} shows that there is a significant difference in students' achievement in vocabulary by using advertisement in experimental class and control class. The students who were taught by using advertisement have achieved better in mastery of vocabulary than the students who were taught without advertisement. So, the use of advertisement to improve students' vocabulary is effective.

B. Suggestion

Based on the findings of the research, the writer would like to propose the following suggestion.

1. For the students of MA Irtiqaiyah Banjarmasin expected to study hard and advertisement can be used as motivation in learning English or enrich vocabulary, they should try and practice, exercise in pronunciation and also grammar, then be confident practice in front of the class with friends or teacher, that are for more easier to practice or speak English.
2. For the teachers should give the students' motivation to learn English and helps the students to more practice English in the class, and recognize about simple advertisement to increase their vocabulary, it can be implemented when the students make wall magazine, promote of the school, and many more, it can be reference as exercise their public speaking too.
3. For the school of MA Irtiqaiyah Banjarmasin the hope is that they will improve in terms of quality and quantity. It is also hopes to increase the competence of teaching and learning process and facilities of the school.
