## ACKNOWLEDGEMENTS

In the name of God Allah. Praise is only to God Allah. My greatest thanks are only to Allah SWT who makes me able to finish this Dimensions of Second Language Anxiety book.

Anxiety is one factor that influences achievement in English language acquisition. Anxiety is a problem for many foreign language students. There are many studies connected with anxiety and students' achievements that have been conducted by many educators, language teachers, experts in education and researchers. They have been interested in the phenomenon of foreign language anxiety for a number of years. This book is expected to be one of references for ones who want to learn second language acquisition deeply.

This book will provide an overview of the foreign language anxiety. This book consists of 4 chapters. Chapter 1 is introduction, chapter 2 discusses dimensions of second language anxiety, chapter 3 provides anxiety and student's achievement in English as a foreign language: a study of adolescents at Sekolah Menengah Umum Negeri 1 Banjarbaru in South Kalimantan, and chapter 4 is discussion and conclusion.

Finally, I thank to my beloved parents and wife who support and encourage me in writing this book. And I welcome all critics and suggestions for better things.

Banjarbaru, August 2009

The Writer
