

## **CHAPTER V**

### **CLOSURE**

This chapter deals with the conclusion and suggestion related to research finding and discussion. For this purpose, the research presents the conclusion of research problem and the suggestion to the English teacher, students, and other research.

#### **A. Conclusion**

Based on the finding of this research, the writer has two points:

1. 51.09% of students stated that the lecturer is often use e-learning. 46.74% of students stated that the material provided by the lecturer through e-learning is completed. 48.91% of students stated that the information given by the lecturer on how to use the e-learning is completed and about the students' activity on the use of e-learning, 54.35% stated never discuss with the lecturer. 57.61% of students stated e-learning is quiet helpful. Therefore, it can be concluding that the lecturer also provides information to students on how to use e-learning as a learning medium. Unfortunately, only a few students are active in discussions with the lecturers and the rest of students were never discussed. In other, e-learning is quite helpful to improve their English skill.

2. 67.39% of the students stated that they knew and used e-learning well. 81.52% of the students stated that they seldom use e-learning in the out of class and 69.57% of the students stated that they seldom use e-learning on campus also. 57.61% of the students stated that e-learning is quiet helpful in delivering learning materials of learning. 53.26% of the students stated that e-learning is quiet easy to use. Therefore, the student's respond on the use of e-learning in learning English at Department of English Education Faculty of Tarbiyah and Teachers Training Antasari State Institute for Islamic Studies Banjarmasin can be conclude that the student merely knows and seldom use e-learning although students feel that e-learning is quite easy to use and also contributed to their learning process.

## **B. Suggestion**

1. Suggestion for the lecturer

E-learning is a teaching media that is easy and flexible. Therefore, the writer hopes all lecturers at Department of English Education who involved in the teaching process can use the media optimally and able to motivate the students to use e-learning as an active learning media.

2. Suggestion for the administrator

In addition to provide training to the lectures, the administrators also need to provide some training or tutorial on the use of e-learning for some students. It will increase the use of e-learning activities on campus.

### 3. Suggestion for the students

E-learning included some of the features discussions and chats, so it makes learning more interesting. Therefore, the students are expected to take an active role in the use of e-learning as instructional media.
