

CHAPTER V

CLOSURE

A. Conclusion

Based on the result of the research toward the comparative study of students; the eighth grade male and female students' mastery of MTs Nipa and Nipi Rakha in the academic year 2015/2016 in degree of comparison, there are some important conclusion that can be presented by the writer as follows:

1. The result of male students' mastery in degree of comparison of the eighth grade of MTs Nipa is in good category with mean score 73,84.
2. The result of female students' mastery in degree of comparison of the eighth grade of MTs Nipi is in good category with mean score 75,86.
3. There is no difference in mastering degree of comparison between the eighth grade male students of MTs Nipa Rakha and female students of MTs Nipi Rakha in the academic year 2015/2016.

B. Suggestion

Based on the findings of research, the writer would like to propose the following suggestions:

1. The English teachers are expected to add their focus in grammatical aspect when they are teaching English. It is important to increase grammatical aspect in teaching and learning process in order to increase the students' score.

2. The students should study hard in learning English especially grammar in order to increase their proficiency commonly in English grammatical aspect and especially in degree of comparison.
3. The English teacher should create comfortable situation in teaching and learning process. Thus, the students will enjoy learning English.
4. Although there is no significant difference in the test result, the teacher must pay more attention about the techniques and methods used in teaching and learning process since between male and female have different characteristics in learning language.
5. The teachers should use the teaching media to make their teaching interesting and motivate the students to communicate in target language.
6. For the next researchers, the writer realizes that the study however, has not been satisfactory yet. The writer hopes that other researchers would continue this study to find other aspects and other methods.
