

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusion

The conclusion that can be taken from the results of research and discussion are as follows:

1. Using Rosetta Stone in improving students' listening skills is fair effective (based on the gain score 0.39).
2. Students' response towards Rosetta Stone is very good. Due to the result of questionnaire which most of students (95.5%) stated that the use of this multimedia can improve their listening skills.

B. Suggestion

Based on the findings of the research, the writer would like to propose the following suggestions :

1. For Students

For the students, it can be as motivation in learning English especially listening. They will get different way in learning to keep practice their english listening skills.

2. For Lecturers

From the results of this research can be submitted suggestions for teachers in order to try using multimedia Rosetta Stone as one of alternative media in learning listening to enhance students' listening skills.

3. For English Department

English Department is expected to facilitate and motivate lecturer in applying learning models are more interesting, effective and fun, to give innovation the process of teaching and learning, especially in learning listening.

4. For other researchers

This research is expected to be a material consideration, reference, or relevance to do advanced research, so that researchers can further refine his research by fixing.
