

## **CHAPTER V**

### **CLOSURE**

#### **A. CONCLUSION**

Based on research result, the writer can conclude the points as follows:

1. The degree of freshman students' English ability before study at Language Development Center (PPB) IAIN Antasari Banjarmasin, from six classes (85 samples) The calculating mean of placement test result is 23.98; it means that the category of freshman students' English ability before study at Language Development Center (PPB) IAIN Antasari Banjarmasin is in very poor category.
2. The degree of students' English ability after study at language Development Center (PPB) IAIN Antasari Banjarmasin for six classes (85 samples) four classes, groups 66, 67, 68, and 76 in very poor category and two classes, groups 77 and 78 in poor category. The calculating mean of written test result is 47.62. It means that the category of students' English ability after study at Language Development center (PPB) IAIN Antasari Banjarmasin is still in very poor category.
3. Based on the result of paired t test by SPSS 17 shows that "there is significant influence of freshman students' English ability after study at Language Development Center (PPB) academic year 2015/2016. Because the scores was statistic significant [ $t = 21.890$ ,  $p = 0.000$ ]. It shows probabilities sig. (2-tailed)  $0.000 < 0.05$  and t count (21.890) t

table (df) N-1 (85-1 =84) 5% (1.99) < (21.890) > 1% (2.64) t table is lower than t count that mean  $H_0$  (Zero hypothesis) is rejected and  $H_a$  (Alternative hypothesis) is accepted.

## B. SUGGESTION

Based on the findings of research, the writer would like to propose the following suggestions:

1. Based on the research, it is found that the comparison is significant. The writer concludes that Language Development Center (PPB) influences freshman students' English ability. Even though the increase is not too high, it still has a good influence for the students' English ability. The students should always improve their English ability, they have to study hard, read the books, article journal and practice their English.
2. For English lecturers at Language Development Center (PPB) IAIN Antasari. It is really helps for the teacher to know how students ability and students development of English in their class, not only in an exam but also in every lesson in the class.
3. Based on result of the research, even though there is an increasing, but it is not too high, actually it should be a good references for Language Development Center (PPB) IAIN Antasari Banjarmasin to increase the learning teaching development and make it more highest. We know that the students who study at PPB come from different major, it means students have different interest and ability in English. It will be a good

references for PPB to develop strategy or method for students who does not interest in English and give appropriate lecturer for them.

4. I hope my research will be a good reference for other researcers and it will be continueted by other researchers to find the factors or aspects that may influence students' English ability.
