

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the finding of the research “An Analysis on Foreign Language Learners from Turkey in the Way of Learning English as a Foreign Language at English Department of UIN Antasari Banjarmasin” which was done through observation, questionnaire and interview, the researcher gives the conclusion include:

1. The Foreign Students’ Learning Style

Based on the results, there are 2 foreign students who has the same learning style, and the other students has different learning style in learning English as foreign language. There are 2 foreign students from Turkey who has kinesthetic learning style, 1 student who has visual learning style and 1 student who has auditory learning style. It can be conclude that the foreign language learners from Turkey has different learning style in learning English as a foreign language.

2. The Foreign Students’ Learning Strategy

Based on the finding, can be concluded that the learning strategy of the foreign students from Turkey in learning English as a foreign language is the same related to cognitive, memori and compensation strategies as their direct strategies and social strategies that they used as indirect strategies.

B. Suggestion

Considering the conclusion above and result of the questionnaire and the interview, the researcher would like to propose some suggestion, which would be useful for The English teacher, the foreign students and the next researcher.

1. The English Teacher

The teacher should be aware of students' difference learning style and strategy so they should apply various kinds of teaching method to give an opportunity for students to adapt their own learning style and strategy. It will improve their English achievement.

2. The Foreign Students

The result of this research is expected to help students to recognize their learning style and strategy and minimize their weakness. Students, especially the foreign students should know what they learning style and strategy and how they preference way to get information and knowledge about learning English as a foreign language. So they will enjoy and feel comfortable following learning process and it makes them easier to comprehend the materials.

3. The Next Researcher

The result of this research is expected to be used as consideration or preview for the next reasearcher in doing the same field of the research with the different object of the research.
