

CHAPTER V

CLOSURE

A. Conclusion

After conducting the research and analyzing all the data, the conclusion of the research can be seen as follow:

1. The vocabulary mastery of the fifth semester English Department in UIN Antasari Banjarmasin is in good category (based on the mean score 77.4)
2. The writing skill of the fifth semester English Department in UIN Antasari Banjarmasin is in fair category (based on the mean score 61.4)
3. There is negative correlation between vocabulary mastery and paragraph writing skill of the fifth semester students of English Department in UIN Antasari Banjarmasin which is the value of r_{xy} is 0.099. It means there is no correlation between variable X and variable Y in this research.

B. Suggestion

Seeing all the explanation and the conclusion above, the researcher intended to give some suggestions related to English teaching learning as well as the future studies.

1. For the teachers should give more attention and motivate the students to upgrade their vocabulary. Then, the teachers should give students more knowledge about vocabulary.
2. The students should improve their writing skill, because writing is important one from four skills in learning language especially English. The students should write as much as possible in order to enrich their knowledge and improve their writing skill.
3. The writer recommends the other writers to continue this study and give many contributions for teaching and learning English process. The writer suggested to the next writer hopefully can be used as a reference for further study on similar problems about vocabulary mastery or their writing skill.
