

CHAPTER V

CLOSURE

A. CONCLUSIONS

Based on the results of research and discussion that has been done can be drawn conclusion as follows:

1. A total of 23 alumni of English Department at UIN Antasari Banjarmasin worked as a teacher and 11 people work in the private sector and 1 person took education to the next level and from 35 respondents only 4 alumni who stated job does not require learning English
2. The level of satisfaction of alumni on servants and competence in the can in English Department at UIN Antasari Banjarmasin can be said satisfactory, because the assessment of satisfaction of the service there is no alumni who give the assessment less satisfied or dissatisfied and the alumni satisfaction on the competence was good because only 2 alumni which states less satisfied and no one expressed dissatisfied so it can be concluded that satisfaction alumni satisfactory.
3. Based on data obtained from 11 stakeholders who responded to provide a very satisfactory assessment, because 3 stakeholders provide a very satisfactory assessment of the performance of alumni, 8 people provide a satisfactory assessment of the performance of alumni and no stakeholders who provide unsatisfactory Election and stakeholder assessment interest if the average is 7,8.

B. SUGGESTIONS

1. Students are expected to get an idea of employment opportunities based on data from previous graduates as well as important things needed in facing the world of work.
2. For the institution, this research is expected to be an input for UIN Antasari Banjarmasin in order to further improve the learning environment, improvement of learning system, and other inputs to further improve the quality of UIN Antasari Banjarmasin and produce much better graduates.
3. For further research, to do further research to do research not only at alumni English department but also other majors to know difference of research result.
