

CHAPTER V

CLOSURE

A. Conclusion

Based on the finding and the discussion, the researcher find that students' perception toward English pre-service teachers' teaching competence is in good category with personality competence as the highest competency with 82.6% and professional competence as the lowest competency with 79.6%.

B. Suggestion

Even though all competences are in a good category, it has to be cleared that pre-service teachers still have to improve their ability in encourage students to become motivated and enthusiast. They also has to make sure that the students are feeling comfortable and pleasant in their learning activity, for there are two schools with total seventy nine students have an average percentage in their perception of pre-service teachers' teaching competence. Based on this finding, therefore the researcher suggests to English education department of Antasari state Islamic university to organize more seminars about teaching technique related to the circumstances mentioned above.
