

## **CHAPTER III**

### **RESEARCH METHODOLOGY**

#### **A. Research Design**

In this research , the researcher uses descriptive qualitative research. According to Creswell, qualitative research is a type of educational research in which the researcher relies on the views of participants, asks broad, general questions, collects data consisting largely of words or text from participants, describes and analyzes these words for themes, and conducts the inquiry in a subjective manner. This research purports to examine some cases related to teaching interventions that the teacher uses in the classroom. In descriptive study, the research goes on naturally, and the researcher has no control over the conditions and the situation, and could only measure what already exists (Gay, 1992: p.11)

#### **B. Research Setting**

The research is conducted at MTs Modern Puteri Cindai Alus Martapura. It is an Islamic Junior High School which is located in Martapura, started in Desa Cindai Alus RT 7 Kec. Martapura Kota Banjar South Kalimantan Province post code 70612. The observations started in October until November 2017. It was conducted in class 8. The writer observed the classroom three times a week for forty minutes on Tuesdays and Wednesdays and for eighty minutes on Thursdays. The total number of observations to collect the data was ten meetings.

#### **C. Subject and Object of The Research**

##### **1. Subject of the research**

The subjects of the research were one English teacher and students at MTs Modern grade Puteri Cindai Alus Martapura. It is a National Islamic Junior High School class. Object of the research

##### **2. Object of the research**

The object of the research is The object of the research is the teacher's intervention that used teacher's speaking in the classroom. teachers' intervention in teaching to develop student speaking skill's at eighth grade of MTs Modern Puteri Cindai Alus Martapura South Kalimantan.

#### **D. Techniques of Data Collection**

In this study ,there were three to techniques that the writer used to collet the data.

They are from obsevation and interviews :

##### 1. Observation

The Technique is used to observe the teaching learning process at MTs Modern Puteri Cindai Alus Martapura. It is also used to collect other related data such as the facilities and the class environment. The observations were held eighth times within tow months,one times a week during English class.

##### 2. Interviews

The this technique, the writer makes communication and interview with some related person, such as English teachers and administration staffs directly to obtain data that are related to the primary or the secondary data.

##### 3. Documentary

The researher also will use documentation,namely data colletion is done by classifying written meterials related the research problom. So the data obtained from observation and interviews, will be obtained from the documentation.

#### **E. Data Collecting Prosedure**

The observation was conducted on 16th November until 16<sup>th</sup> january 2018. The interview was conducted on 24<sup>nd</sup> November 2017 until 25<sup>nd</sup> November 2017 and documentary was conducted on 25<sup>nd</sup>.january 2017.

#### **F. Data and Source of Data**

1. Data
  - a. Teacher Interventon
  - b. Student's Response

The data which is identified in the research consist of primary data and secondary data.

## 2. Source of Data

Respondent : One English Teacher of MTs Modern Puteri Cindai Alus Martapura and the Eight Student's ”.

Informant : The headmasters, teachers, and administration staff.

Documents : All written repots that related to the primary and Secondary data in MTs Modern Puteri Cindai Alus Martapura.

## **G. Data of Data Processing and Analysis**

1. Technique of data processing
  - a. Collecting

The writer collect the data form observation in the school.

- b. Classifying

The writer uses the techniques to classify the collected data based on its kind in order to analyzing the data easily.

- c. Editing

The writer recheck all the collected data to make sure whether they have already completed or not in this research.

## 2. Technique of Data Analyzing

All the data are collected by using observation and interview are analyzed descriptively. The data analysis uses draw the conclusion of the research.
