

CHAPTER V

CLOSURE

This chapter presents the summary of conclusions and suggestion dealing with the research finding of the research. The conclusions come from the findings that have been discussed in the previous chapter. Based on these conclusions, there are some suggestions that are expectation that aims to contribute the critical thinking learning.

A. Conclusion

Based on the findings of the whole research problems which have been presented above, here is the conclusion of the study:

1. The Management Program of LiDS Educia in developing Critical Thinking Skills are Member Recruitment program and Debate Rehearsal
2. The process of critical thinking in management program are Identifying reasons and conclusion, Understanding reasoning: assumptions, context, and a thinking map, Clarifying and interpreting expressions and ideas, Decisionmaking: options, consequences, values and risks.
3. The benefits of critical thinking variable is included in very good category with 82,8. This condition is supported by item no. 13 with 91 score in very good assessment category. Next, the lowest score is item no. 10 with 73 score in good assessment category. Based on findings above that can be concluded

80

that the role of LiDS Educia to develop critical thinking for the member is big.

B. Suggestion

This suggestion is necessary for the relevant people, they are:

1. For the students

The researcher suggests the student to always apply critical thinking as well as possible in their daily life. Students should solve the problems with the wise thinking in order to make the students' life useful for around them.

2. For lecturer

The teacher needs to care of the students which have lowest critical thinking skill because they have right to have better skill in order to make their life be meaningful.

3. For the next researcher

The researcher hopes for the next researchers investigates the students which have lowest critical thinking in their daily life. The next researcher might be better if they describe bravely about the students' way in building their critical thinking in their daily life. It will be useful because it will make their life to be meaningful than before if they know the way their thinking solve the problems.
