

BAB V

CLOSING

A. Conclusions

Based on the research that had been done, then the writer could conclude as follows.

1. The ability of students in class XI MIA 1 with using Extensive Reading technique in improving vocabulary of English is in fair qualification. The mean score of the students' post-test was 62.29

The ability of students in class XI MIA 2 without using Extensive Reading technique in improving vocabulary of English is in poor qualification .

The mean score of the students' post-test was 57.50

2. The use of Extensive Reading technique is effective for improving students vocabulary at eleventh grade students at MAN 2 Pulang Pisau

B. Suggestion

Based on the conclusion and the result of research, there are some suggestions for English teachers, students of English Education Department, and other researchers. The suggestions are as follows:

1. English Teacher

Based on the success of implementation of Extensive Reading in teaching and learning process, teacher must be selective and creative choosing the material of reading which is suitable with students capacity and level, and

then teachers need to more up date with the material to support teaching and learning process.

2. Other Researcher

This research could be used as reference to the next research. There are still many of action that can't be implemented and not maximal to improve the vocabulary in this research. Therefore, the other researcher need to implementation other technique which more effective to improve students vocabulary. It is possible to choose the other grade or level in improving students vocabulary in teaching and learning process with provide the interesting activities and techniques.
