

## CHAPTER V

### CLOSURE

#### A. Conclusion

After analyzing CHAPTER II from thesis of UIN Antasari Banjarmasin English Education Department students, the researcher can conclude that:

1. In made citations in CHAPTER II, students used the APA format.

Examples: As mentioned in Mee (1990, p.75) ...

According to Mee (1990, p.75)...

2. The dominan error made by students is not to include citation information in references. There are 66 or 17% of the total 388 citations that do not contain the information in references. In citation writing, the least mistakes made by students are not containing information about the year, page and not containing information on citation sources in references as many as 16 citations or 4.12% of the total 388 citations conducted in CHAPTER II.

## **B. Suggestion**

Based on this research, researchers submit the following suggestions:

1. Expected during academic writing learning, the explanation in APA writing is more noticed so students can understand and apply it well.
2. The role of the lecturer is very important, so that the firmness of the supervisor is needed to ask students to be more thorough and consistent in the use of the APA writing guidelines.
