

CHAPTER V

CLOSURE

A. Conclusion

Based on the result of data analysis from interview, observation, documentary and discussion above, it can be conclude that:

1. The perceptions of English teachers at senior high schools in Banjarmasin about English language learning materials is adjusted from target and learning needs of the students. The teacher must do need analysis before they took the materials because need analysis is related to design of the material that students need, its development, realization, and evaluation if it has a lack.
2. The teachers selected materials according to students' need. They took the materials from standard government book, other books, and internet sources. For developing materials, they mixed materials between textbook and internet sources for teaching and learning process. They wanted students more active with discussing with other students and search information as much as possible. During teaching and learning process, they used various methods because they wanted to make the students get the learning's objectives.

B. Suggestions

Based on the findings, it is necessary to give some suggestion for English teacher and next researchers.

1. Suggestion for the teacher

Researcher suggest for the teacher to teach with using various media beside textbooks, whiteboard, hand phone, and internet, the teacher maybe used variation like power point, video, and more games in teaching and learning process.

2. Suggestion for next researchers

For the next researchers, the researcher suggests to conduct the study not only teachers' perceptions but also students' perception about selecting and developing English learning materials because students may also have some perception about their needs for the materials. Thus, it can help the researcher gather a deeper data in selecting and developing English learning materials.
