1. Based on the result of the research, for the first research problem Based on observation and interview results the researcher found out the learning of English at SMAN 7 Banjarmasin, among of the three English teachers are able to used and master a variety of modern Instructional media such as Powerpoint slides, internet and audio recording.
2. The reasons of the teachers in using the media are (a) Help the teachers to show some contents in easy way, (b) Can covered another media, and (c) the teacher believe that it can increase students interest effectively. And the internet already one of the instructional media that most often used by teachers because (a) To find lowcost or free materials (b) To connect the classroom to the larger world and the used of audio speaker was (a) bring real situation of English conversation.

B. Suggestion

Based on conclusion above, the researcher tried to give recommendation as follows:

1. If SMAN 7 Banjarmasin wants to maintain good school accreditation. schools must maintain the ability of their students, not only students who must continue to learn but teachers must also learn again through special upgrading of the latest media technology or schools must present native speakers who are experts in English and experts in developing English learning media.
2. Students should be more active in using instructional media in effort to improve students' English skills so that the objectives and learning outcomes can be achieved optimally.
3. The teachers should try to use another kind of media that might be helpful for them and effective for the student.
4. It is needed for the teacher to use variety of media so the student will not be bored of the same teaching media
5. The teachers should make sure that they use the media that they have mentioned in lesson plan.
