

## CHAPTER V

### CLOSURE

#### A. Conclusion

Based on the results of the study, researcher can conclude about the Exambro application, namely:

1. In this study, MAN Kapuas is one of the schools that conducts examinations, in which English teacher uses the Exambro application. Based on the results of the study found that the English language teacher in this school uses the Exambro application as a tool to give examinations assignments and a tool for students in conducting examinations.
2. Most students in class XII IPA 2, XII IPS 3, and XII PAI stated that they like to use the Exambro application. They also thought the Exambro application helps them doing the test. However, there are also some students who stated that the Exambro application still have some weaknesses which caused them difficulty in using this application. Whereas teacher A states that the use of the Exambro application in the English exam is very interesting, and also in the use of the Exambro application in the exam can make it easier for the teacher in conducting the exam, especially in terms of supervision, therefore using this application can avoid cheating from students.

## **B. Suggestion**

Based on the finding of the research, the researcher would like to purpose the following suggestion:

1. At this school it will be even better if you increase the capacity of the Wi-Fi network, so students are easier to use this application.
2. It is recommended for users of this application, especially students. In order to provide their own internet quota, if at any time the school's internet or Wi-Fi network is interrupted, so students can log into this application easily.
3. This school will be better if it can support all the teachers in this school to be able to use the Exambro application, so that teachers can more easily take examinations, especially in terms of supervision.
4. The next researchers will be better if they can examine various applications for the exam. Because by examining the application for the implementation of the test, we can find out how the application can be used and how various parties see the use of the application in the implementation of the test.
5. To use of this application, not only for senior high schools, but also for junior high schools who use this application as a technology media for conducting exams. Provided that schools are adequate in terms of technology, such as internet connections in the form of Wi-Fi, computers or laptops, etc.
