Technology is very important in our lives today and it is very good if the technology that is available today is used as well as possible to develop education. In this study, researchers wanted to find out what applications were used by several lecturers at universities located in Banjarmasin. In accordance with the kinds, application here will be grouped so that it can be additional information for readers. If the education sector does not keep up with the modern era that is developing as it is now which almost all sectors have used technology well, it will be increasingly left behind and will not advance the education system in Indonesia, especially in Banjarmasin

In this study, researchers used qualitative research as a research method using several theories from previous experts to support this research until it was completed. Through interviews with several English language lecturers from UIN Antasari Banjarmasin to the University of Muhammadiyah Banjarmasin, researchers asked several things related to the type and use of applications that have been and are being used by lecturers today to support their teaching and learning activities inside and outside the classroom.

With this study, researchers obtained interviews with lecturers who had been asked about the applications they had used while teaching. And as a result, the lecturers use the applications they choose according to what they need in their teaching and learning activities related to the course they are studying. Each lecturer has their benchmarks based on the ease and features they use in each application. And the researcher get kinds of learning applications from the lecturers that have been asked as follows; Learning Management System (LMS) it has: Edmodo, Schoology, Google Classroom, Canvas, and Moodle. In Mobile Learning Applications has: Kahoot, Google Forms, Rubistar, and Quizstar. And in Social Media, it just has Instagram.

ABSTRAK

Wardani, Ahmad Kusuma. 2019. *Learning Application in Supporting Teaching and Learning Activities At Higher Education in Banjarmasin* Skripsi. Jurusan Tadris Bahasa Inggris., Fakultas Tarbiyah dan Keguruan, UIN Antasari Banjarmasin. Dosen Pembimbing: (I) Puji Sri Rahayu, MA, (II) Fajrianor, S.Pd, M.Pd.

Kata kunci: Perguruan tinggi, Pembelajaran berbasis elektronik, Aplikasi mobile, Media sosial.

Teknologi sangatlah penting dalam kehidupan kita zaman sekarang dan sangatlah baik apabila teknologi yang telah tersedia di zaman sekarang digunakan sebaik-baiknya untuk mengembangkan pendidikan. Di dalam penelitian ini, peneliti ingin mengetahui apa saja aplikasi aplikasi yang digunakan oleh beberapa dosen di perguruan tinggi yang terletak di Banjarmasin. Sesuai dengan macam macamnya, aplikasi aplikasi disini akan dikelompokan agar dapat menjadi tambahan informasi bagi pembacanya. Apabila bidang pendidikan tidak mengikuti zaman modern yang berkembang seperti sekarang ini yang mana hampir semua bidang telah menggunakan teknologi dengan baik, maka akan semakin ketinggalan dan tak akan maju sistem pendidikan di indonesia khususnya di Banjarmasin

Di dalam penelitian ini, peneliti menggunakan qualitative research sebagai metode penelitian menggunakan beberapa teori dari para pakar terdahulu untuk menunjang penelitian ini hingga rampung terselesaikan. Melalui interview ke beberapa dosen bahasa inggris mulai dari UIN Antasari Banjarmasin hingga University of Muhammadiyah Banjarmasin, peneliti menanyakan beberapa hal terkaitan dengan jenis dan penggunaan aplikasi yang pernah dan sedang digunakan oleh dosen saat ini untuk menunjang kegiatan belajar mengajar mereka di dalam maupun di luar kelas.

Dengan penelitian ini, peneliti mendapatkan beberapa hasil interview dari dosen yang sudah ditanya tentang aplikasi yang pernah mereka pakai selama mengajar. Dan hasilnya, para dosen menggunakan aplikasi yang mereka pilih sesuai dengan apa yang mereka butuhkan dalam kegiatan belajar mengajar mereka terkait dengan mata kuliah yang sedang mereka pelajari. Setiap dosen memiliki tolok ukur mereka berdasarkan kemudahan dan fitur yang mereka gunakan dalam setiap aplikasi. Dan peneliti mendapatkan jenis-jenis aplikasi dari dosen-dosen yang telah ditanya yaitu; Learning Management System (LMS) didalamnya adalah: Edmodo, Schoology, Google Classroom, Canvas, Moodle. In Mobile Learning Applications didalamnya adalah: Kahoot, Google Forms, Rubistar, and Quizstar. And in Social Media, hanya mempunyai satu yaitu Instagram.
