

## **CHAPTER V**

### **CLOSURE**

In this last chapter, the researcher presents the conclusion and the suggestions based on the analysis done in previous chapter. It acquires the main points of research for concluding all of the data that have been gathered and analysis. The researcher also afford some suggestions for the readers who require to conduct a research with the similar subject. It has to be associated with the title “Online Reading Strategies Used by English Education Students of UIN Antasari Banjarmasin.”

#### **A. Conclusion**

Based on the research result about frequently used of Online Reading Strategies for fifth semester of English Students, the researcher accomplished that the most online reading strategy used by English Students is Support Reading Strategies and the least online reading strategy used by the English Students is Global Reading Strategies.

Meanwhile, for the Problems faced by English Students while using online reading sources are determined in six main problems which are: (1) The lack of scientific vocabularies, (2) The validity of the sources, (3) The lack of skills when searching the relevant material, (4) Typographical features, (5) The quantity of the materials, and (6) External Problems that are related to the duration of reading online that affects eyes to be tired and internet connection.

**B. Suggestion**

From the result of the research, discussion, and conclusion which is discussed above, the researcher eagers to give some suggestion as follows:

1. The students should learn and memorize more about scientific vocabularies.
2. The students should learn more about how to find the appropriate material and comprehend the text when they use online reading sources, especially in journal article.
3. For all the lecturers who teach the subject material related to reading comprehension, it better to provide new literacy like online reading to equal the current development.
4. The lecturers who already apply online reading in class should be able to teach and improve the students' ability in understanding of how they need to use the appropriate strategy while they read online and how to overcome the problems faced by the students while reading using online sources.
5. For the future researcher, it is better to explore more about specific theme about online reading and its strategies. In example, it could be online reading for entertaining which is different with this object of the research only about academic purposes.
