| N                                 |                | 100                     |
| Normal Parameters <sup>a, b</sup> | Mean           | ,0000000                |
|                                   | Std. Deviation | 2,40338888              |
| Most Extreme Differences          | Absolute       | ,069                    |
|                                   | Positive       | ,066                    |
|                                   | Negative       | -,069                   |
| Test Statistic                    |                | ,069                    |
| Asymp. Sig. (2-tailed)            |                | ,200 <sup>c, d</sup>    |

- a. Test distribution is Normal.
- b. Calculated from data.
- c. Lilliefors Significance Correction.
- d. This is a lower bound of the true significance.

## Uji Normalitas Data Variabel X terhadap Variabel Y<sub>2</sub>

### One-Sample Kolmogorov-Smirnov Test

|                                  |                | Unstandardized Residual |
|----------------------------------|----------------|-------------------------|
| N                                |                | 100                     |
| Normal Parameters <sup>a,b</sup> | Mean           | ,0000000                |
|                                  | Std. Deviation | ,05210957               |
| Most Extreme Differences         | Absolute       | ,089                    |
|                                  | Positive       | ,089                    |
|                                  | Negative       | -,086                   |
| Test Statistic                   |                | ,089                    |
| Asymp. Sig. (2-tailed)           |                | ,051 <sup>c</sup>       |

a. Test distribution is Normal.

b. Calculated from data.

c. Lilliefors Significance Correction.

## ANALISIS REGRESI LINIER SEDERHANA DAN UJI HIPOTESIS

Uji Koefisien Determinasi Variabel X terhadap Variabel Y<sub>1</sub>

### Model Summary

| Model | R                 | R Square | Adjusted R Square | Std. Error of the Estimate |
|-------|-------------------|----------|-------------------|----------------------------|
| 1     | ,437 <sup>a</sup> | ,191     | ,183              | 2,41562                    |

a. Predictors: (Constant), Era Industri 4.0
