

CHAPTER V

CLOSURE

A. Conclusion

According to the explanations before, it can be concluded in three important point that the researcher found or result of this research:

1. The teaching media made by pre-service english teachers for online teaching learning process are video, picture, power point, text and audio, but the main of teaching media that made by pre-service english teachers for online teaching and learning process is video. Pre-service english teachers made powerpoint, audio, text and pictures to completed and supported the teaching media which they have made.
2. The quality of the teaching media made by the pre-service English teachers

The teaching media that made by pre-service English teachers has a good quality but there is one of several pre-service englishteacher has a pretty good quality. The teaching media that they made are accordance with the current condition of the students, the material presented accordance with the concept of the teaching media, animation in the teaching media are very interesting, the combination of colors, text and pictures also appropriate.

3. The advantages and disadvantages of teaching media made by the pre-service English teachers perceived by pre-service English teachers

The advantages of making this media are easy to understand by students, easy to play back, attractive appearance so that students do not get bored and develop students' thoughts and opinions. The disadvantages of making teaching media are environmental noise that can disturb pre-service English teachers in creating the teaching media, network connections that do not support uploading learning media and for communicating with students, internet data which is very important in online teaching and learning and the language that used by pre-service English teachers are sometimes not in accordance with the character of students.

B. Suggestions

Based on findings of research, the researcher would like to propose the suggestion as follows:

1. For pre-service English teachers, be more prepared and learn more about making the teaching media, one of them is teaching media related to digital because you don't know what it will happen if you carry out a teaching practice program II. As is currently experienced, there is a pandemic in Indonesia which requires the world of education to learn online without face to face and pre-service English teachers are required to create media that can support the teaching and learning process.

2. For pre-service English teachers, they must be able to see the situation and condition of the students to be taught so that the teaching and learning process can run well, for example in making learning videos more attention is paid to the use of language, the material presented and things that can disturb students when listening to videos learning given.
