Language is a very important factor of communication among society. Also, using language has some function, for example it can be used to express the person's feelings and attitudes. Film is one of the example which the character uses many different of language styles. Based on that phenomenon, the researcher is interested in analyzing the language styles that are used by Pete Dunham in Green Street Hooligans Film based on the theory of Martin Joss and interpreting how he uses different language styles to his interlocutors.

The researcher uses descriptive qualitative method. The instrument of this research is the researcher itself. The researcher is able to determine the research focus, choosing data and collect the data. The data is taken from the script of this film. The researcher uses documentation method to collect the data. There are two steps of data analyziz procedures : classification (selecting the utterances and classify them into appropriate types of language styles), and coding (ease the process of analyzing language styles).

The result shows that there are four kinds of language styles that are used by Pete Dunham, there are Formal, Consultative, Casual, and Intimate. The most dominant of language style that is used by Pete Dunham is casual style. This is caused by many factors so that Pete uses different language styles such as the interlocutor, the situation, and the characteristic of the Pete Dunham. The researcher hopes that this research can be useful for lecturer and students in learning about language style. For other researcher, this study can be one of their reference.
