

CHAPTER V

CLOSURE

A. Conclusion

This study is conducted to find out the language styles that are used by Pete Dunham in Green Street Hooligans film. The researcher used Martin Joss' theory to analyze the data. From the analysis that is done by the researcher, the researcher found four types of language styles that are used by Pete Dunham, there are Formal, Consultative, Casual, and Intimate styles. Then, from all of those language styles that has been found by the researcher, the Casual style is the most dominant style that is used by Pete Dunham.

B. Suggestion

Based on the conclusion that have been explained above, the researcher gives some suggestions for English students, English teachers, and other researchers.

1. To English Education Department Students

The English Education Department Students are expected to learn more about language style so that they could applied in daily life. By understanding the language style, the students will be more aware of the way they speak depending on the situation that they will face.

2. To English Lecturer

The English Lecturer can apply language style in process of teaching in order to show the students about how to speak appropriately.

Also, the lecturer can use the film to teach the language style as an example of application of language style in real life and it can make the learning process becomes more interesting.

3. To Other Researchers.

The objective of the research is limited only to analyse the types of Martin Joss' language style. Therefore, it is expected that the limitation of this research will make the other researcher who wish to carry out the similar study to encourage to investigate deeper about language style.
