**Keywords:** Interaction, Parents, School.

The background of this research is that in order to establish quality human resources and have good character, of course the role of people around children is very influential on their development. Education as an effort to form a human person must go through a long process, things that cannot be known immediately, are different from forming inanimate objects that can be done in accordance with the wishes of the maker. Habit in children's education is very important, especially in the formation of personality and morals. Religious habituation will include positive elements in children's growth. The more religious experiences a child gets through habituation, the more religious elements will be in his person and the easier it will be for him to understand religious teachings.

This study aims to describe and critically analyze how the interaction between family education and Islamic elementary school Ihya Ulumuddin Nur Sufi'iah Amuntai Hulu Sungai Utara Regency.
