Keywords: Tahfizh, Al-Quran, Al-Qur'an Park Foundation.

This research departs from the many interests of parents in Banjarmasin to send their children to tahfizh Al-Qur'an. The number of children who enter the tahfizh boarding school makes the cottage or foundation in Banjarmasin increase. Even outside the Banjarmasin area it is also increasing. This makes a lot of research by students and students on various campuses.

The Taman Cinta Al-Qur'an Foundation in Berangas Timur Village, Barito Kuala Regency, includes a place that accommodates children who want to memorize the Qur'an. This foundation also includes the first tahfizh house in Barito Kuala. It started with learning at the home of Ustadz Abi Firdaus as a leader in 2016. At that time there were still 20 students who were studying. The longer, the learning is growing which makes it difficult to accommodate in his house Abi Firdaus. In short, he met a wealthy businessman and began working together to build a tahfizh school. So in 2018 the building officially became the Taman Cinta Al-Qur'an Foundation which is under the auspices of the Education Office.

The problem in this study is to propose about memorizing the Qur'an which is applied at the Taman Cinta Al-Qur'an foundation in guiding its students to memorize the Qur'an with a focus on research on how to memorize the Qur'an and what things that hinders and supports those who are there.

This type of research is field research. In this study, the research subjects were 2 ustadz and 1 ustadzah and were strengthened by the chairman of the foundation. The object of this research is the memorization of the Qur'an at the Taman Cinta Al-Qur'an Foundation, Barito Kuala Regency and the things that support and hinder the memorization of the Qur'an at the Taman Cinta Al-Qur'an Foundation, Barito Kuala Regency. In collecting the data using the method of observation, interview documentation.

Based on the results of this study, it is known that the process of memorizing the Qur'an at the Taman Cinta Al-Qur'an Foundation has been carried out well. Typical methods used in this foundation are al-Busro and Bismi. Fighting over deposits, limited student abilities, standardization of teachers and fatigue become obstacles in memorizing. While the strategic place, the existence of family values and always motivated are supporting factors for students to memorize the Qur'an. This has a negative impact that makes students feel unmotivated and feel inferior, in addition to the positive impact it makes students feel at home to live in this foundation and always get the attention of the teachers who try to motivate their memorization.
