

CHAPTER V

CONCLUSION & SUGGESTION

A. Conclusion

Based on the analyzing data in the previous chapter, the researcher concludes two points that is presented below:

1. According to the data there are three language styles that used by pre-service English teachers in online learning video found there. They are formal style, consultative style, and casual style.
2. The dominant language style that used by pre-service English teachers is formal style.

B. Suggestion

Based on the discussion and the conclusion above, the researcher wants to give several suggestions, as follows:

1. For the teacher

It is important to know more and master the language and use the language in every situation appropriately. By knowing more about the language style, it helps the teacher to adjust the language style based on situation, level, age, and grade. Thus, the teaching and learning process can run well.

2. For students and readers

The researcher hopes that students or the reader should know more about the teacher's or speaker's language style so that it be easy to understand the teacher's explanation or speaker's utterance.

3. For further researchers

This research can be as a reference or previous study to the next research with new developing in information about language style, to analyze the different field, to use the different data and the other theory of language style.
