

## **CHAPTER V**

### **CLOSURE**

This chapter presents the conclusion and suggestions about the result of the research. The conclusion addresses the answers of research questions in as stated in chapter one. The suggestions are provided to expect better improvement for lecturers, students, and future researchers related to this field.

#### **A. Conclusion**

After conducting the research, doing analysis of document text and interview, and presenting the result of the research. In this part, the researcher would like draw a conclusion.

1. Thematic progressions that students used were Constant Thematic Progression and Linear Thematic Progression. With the number occurrence for each patterns were, Constant Thematic Progression 28 times and 48 times for Linear Thematic Progression with the total both of them 76 times pattern found in students recount texts. That was showed that the most used by students was Linear Thematic Progression.
2. Furthermore, for how they organized theme and rheme were by decided the topic and the generic structure surely will make them easier to start the theme in clause. Whether start the theme by the participant of the events or the start by the events itself.

#### **B. Suggestion**

After conducted this research, the researcher would like to propose some suggestions.

1. For the lecturer

The researcher suggests the lecturer to apply thematic progression in their writing class and teach students specifically about this. Inform the students that the good thematic progression will give the coherence of text.

2. For the students

The students also need to improve their vocabularies, so they didn't find writing is difficult. Also, student needs to understand more about theme and rheme.

3. For the future researcher

The researcher suggests the future researcher could conduct the similar research but still has the differences. It could be analyze the specific what theme that students used, since there are several type of theme.
