It can conclude that types of communication strategies who used students An-Najah Islamic Boarding School, that are stalling or time gaining, literal translation, mime, approximation, language switch, topic avoidance, circumlocution, and word coinage. The example of using those types are:

1. Stalling or Time Gaining: Eeeee, Hhhmmm, Aaaaa, wait I will look for on dictionary, I think, do you think, mmmmm, alright, okay, Mmm wait a moment, and so.
2. Literal Translation: “burung beo” is a bird but Beo is still Beo, right so "Beo Bird", “we together (bekerja sama)”, “Stick from radio”, “Work hard”, and “line clothes”.
3. Mime: want to show the building but don't know the name, so immediately say "over there or is that" while pointing in the direction shown, to expression the something which hard vocabularies so speak so simple, when I don't know the vocabularies like that, like “I want go to ... (while pointing in the desired direction)”, when ask for things “take for me that (while pointing at the item I want to pick up).

B. SUGGESTIONS

Based on the findings, it is necessary to give some suggestion for Lembaga Bahasa and next researchers.

1. Suggestion for Lembaga Bahasa

Researcher suggest for the Lembaga Bahasa to teach the students for using other strategies and accustom them to use that strategy mostly, and in researcher’s opinion a good communication strategy to be used is circumlocution. This strategy keeps the students to speak English by describing what they want to say in English sentences, so it is useful for improving students’ speaking skill, then the students will speak English fluently.

2. Suggestion for next researcher

For the next researchers, the researcher suggests to conduct the same study, but using different theory of communication strategies because it is useful for getting deeper understanding of many types of communication strategies, and to know which

strategies useful to help us in giving understanding each other when communication.
