

CHAPTER V

CLOSURE

This content for this chapter consists of two part. The first part is about conclusions of the findings that the researcher found in the research. the second part is related to the suggestions that the researcher proposes for the future in the results of research that has been done.

A. Conclusion

From all the data analysis about the use of podcast in learning Public speaking at the fifth semester students of English Education Department of UIN Antasari Banjarmasin Academic year 2018, it can be concluded that:

1. Learning Public Speaking using podcasting as a Project Based Learning can be done well, in which the lecturer uses the Anchor.fm application as a recommended platform to create podcasts. There are three steps in creating podcast; Pre-production, Production and Post-production. The students can choose from three types of podcast: solo podcast, interview podcast, or podcast with multiple hosts. Some students follow the rules on the creating podcast using Anchor.fm. However others use in a different application. The researcher also found one of the students created a podcast using the manual recording from their smartphones.

2. The problem faced by the students in creating podcast as a Project Based Learning in the Public Speaking class is depend on prepare the record mentally. Making an interesting podcast need several times to achieve the best results. Aside from that, the most crucial problem investigated in this study was about the internet connection. They might have problems in uploading and having access to podcast application. In addition, they also stated editing process also one of the most challenge factor in conducting of podcast project.

B. Suggestions

Considering the results of this research, the researcher suggests:

1. To lecturer of English Education Department, it is hoped that they always implemented podcast and it would be better if the lecturer could use podcast to teach various skills in English.
2. To students of English Education Department, it is hoped that they always keep practicing and improving their Public Speaking skills.
3. To next researcher, it would be better if they can examine various learning applications. because with research on learning application, we can find out how the application can be used in teaching and learning process.
